We are pleased to report to you that Mental Health Resources, Inc. has been accredited for a period of three years for our Outpatient Treatment and Residential Treatment Programs. This is the first accreditation that the international accrediting body, CARF, has given to MHR.

Mental Health Resources, Inc. is a private, non-profit Community Mental Health Center that has been providing mental health and substance abuse treatment in the Eastern New Mexico service area since 1975. By pursuing and achieving accreditation, Mental Health Resources, Inc. has demonstrated that we meet international standards for quality and are committed to pursuing excellence.

This accreditation decision represents the highest level of accreditation that can be given to an organization and shows our organization's substantial conformance to the CARF standards. An organization receiving a Three-Year Accreditation has put itself through a rigorous peer review process. We have demonstrated to a team of surveyors during an on-site visit our commitment to offering programs and services that are measurable, accountable, and of the highest quality.

CARF is an independent, nonprofit accrediting body whose mission is to promote the quality, value, and optimal outcomes of services through a consultative accreditation process and continuous improvement services that center on enhancing the lives of persons served. Founded in 1966 as the Commission on Accreditation of Rehabilitation Facilities, and now known as CARF International, the accrediting body establishes consumer-focused standards to help organizations measure and improve the quality of their programs and services.

We would welcome an opportunity to further acquaint you with our services and respond to your questions. We believe our organization is a valuable asset, and our CARF accreditation underscores our commitment to the community we serve. Please feel free to contact Jennifer Lockwood at 575-769-2345 ext. 117 for more information.

Thank you,

Brad Rikel, LPCC
